ABOUT ME

Full Stack Developer with hands-on experience building production inventory systems using React, Node.js, and Django. Strong in JavaScript/Python with growing DevOps and CI/CD exposure.

EDUCATION

Asia Pacific University | 2025-2026

Certificate in Information and Communication Technology

CGPA : 3.21 / 4.0 | Kuala Lumpur, Malaysia

The City School | 2014-2022

Cambridge Assessment International Education

Ordinary Level

Karachi, Pakistan

WORK EXPERIENCE

SPARK Internship at Asia Pacific University

Web Development Intern March 2026 - June 2026

During the internship I gained skills to improve myself in JavaScript and Python, I developed the Application based Website, which is basically an Inventory Management System for APU's Career Centre Staff usage. With help of Django I took shortcuts while developing the Website.

MBK ASIA SDN BHD

Inventory Control Manager March 2025 - June 2026

Inventory Control Manager of a Restaurant based Warehouse where my Key responsibilities are to keep track record of Vendors their supplies, Daily Stock Items forecasting and Entries of the Data into the Spreadsheets.

MBK ASIA SDN BHD

Web Application Developer - June 2026

Designed and Developed a Fully responsive Web Application of Inventory System for the company. To overcome the hassle of daily manual entries and prevent any sort of variance. Developed using HTML5 , CSS, JavaScript, React for Frontend, Node.js for Backend, SQL for Database and for PDF printing used jsPDF Library. Now working on the company's Onilne Ordering Website.
